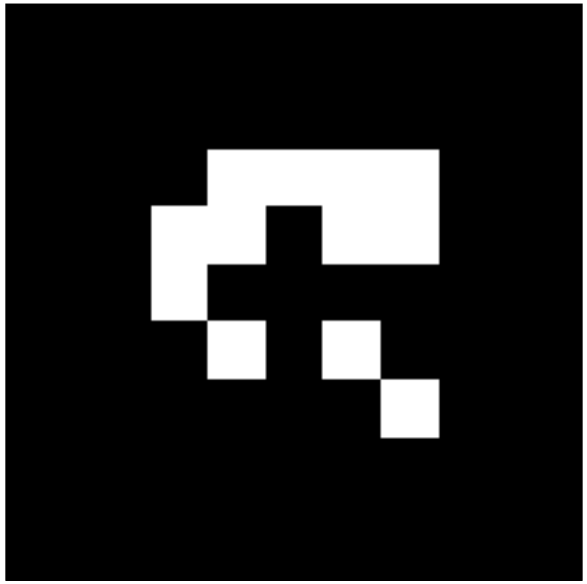
AR - demo 5x5 BCH Barcode Markers

https://kcollins.github.io/xr-notes/AR/ARJ.html

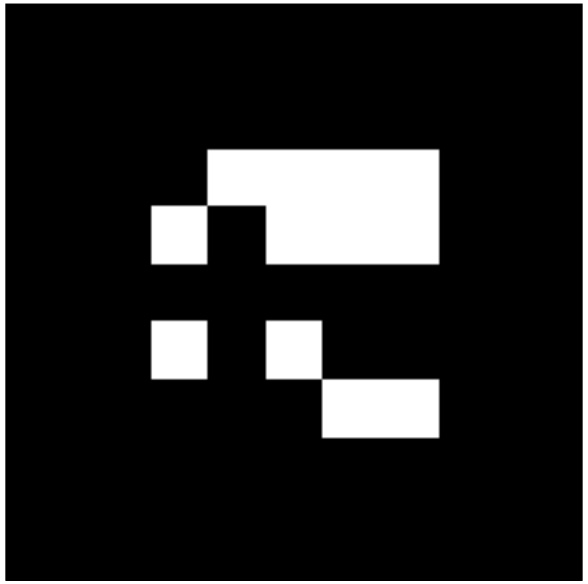
Sheet 1 of 6 - print at 100% scale; each marker square is 3.0 in.



ID 1

Tohoku earthquake volume

3D rupture schematic for the 2011 Tohoku earthquake.



ID 2

Electron density point cloud

Point cloud of electron density respond in the ionosphere following the Tohoku 2011 tsunami.

ID 3

Ocean-flow video globe

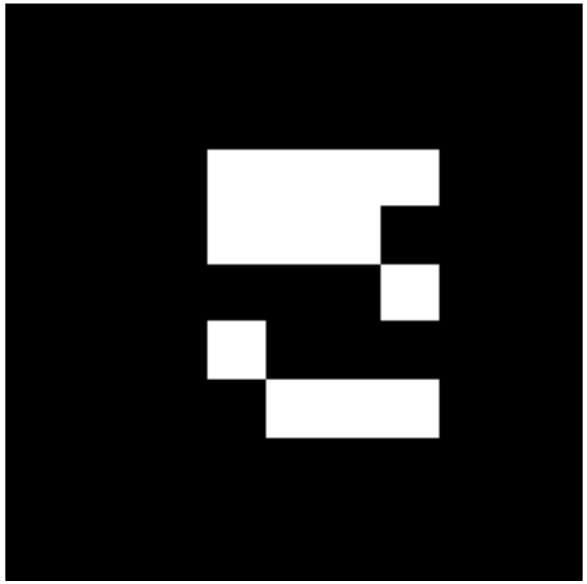
Animated ECCO ocean-surface flow video mapped onto a rotating sphere.

Keep markers flat, matte, high contrast, and fully in frame for AR visualization.

AR - demo 5x5 BCH Barcode Markers

https://kcollins.github.io/xr-notes/AR/ARJ.html

Sheet 2 of 6 - print at 100% scale; each marker square is 3.0 in.



ID 4

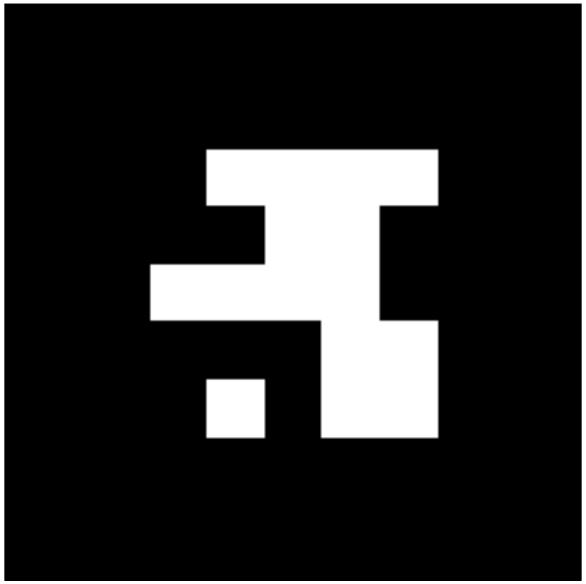
EOS logo image marker

Eos logo image.

ID 5

CubeSat spacecraft

Generic 1U CubeSat model with a label and gentle motion.



ID 6

Rotating Earth

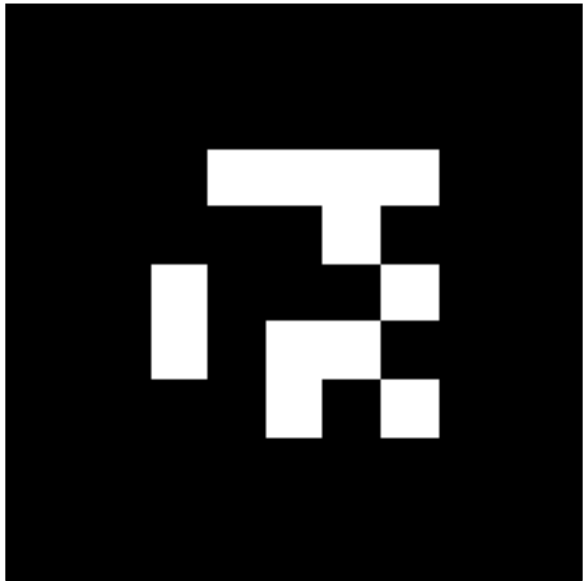
Lightweight Earth globe with animation.

Keep markers flat, matte, high contrast, and fully in frame for AR visualization.

AR - demo 5x5 BCH Barcode Markers

https://kcollins.github.io/xr-notes/AR/ARJ.html

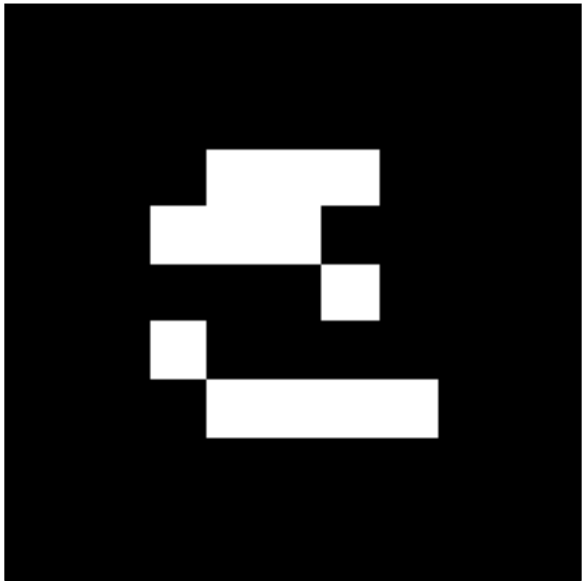
Sheet 3 of 6 - print at 100% scale; each marker square is 3.0 in.



ID 7

Antarctica ice sheet

Polar terrain model showing the Antarctic ice-sheet surface.



ID 8

CO2 emissions sphere

Atmospheric CO2 video texture on a sphere.

ID 9

Earth interior cutaway

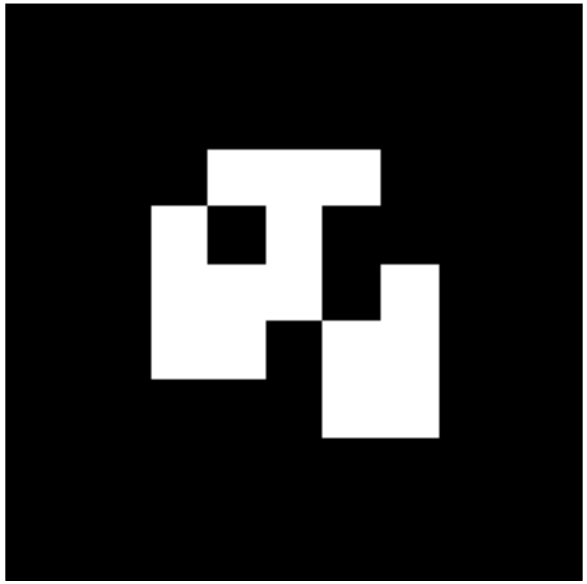
Layered Earth cross-section showing crust, mantle, and core structure.

Keep markers flat, matte, high contrast, and fully in frame for AR visualization.

AR - demo 5x5 BCH Barcode Markers

https://kcollins.github.io/xr-notes/AR/ARJ.html

Sheet 4 of 6 - print at 100% scale; each marker square is 3.0 in.



ID 10

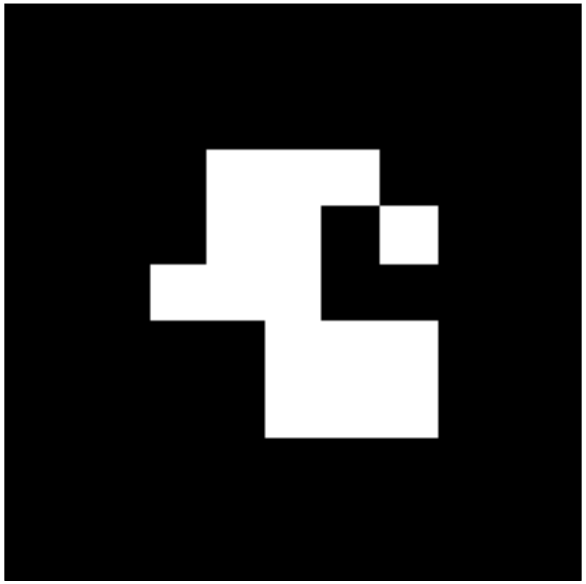
AWE radiance swath

OH swath from NASA's AWE satellite.

ID 11

Curacao coral reef

Underwater coral reef model for 3D habitat visualization.



ID 12

Curacao coral zoom

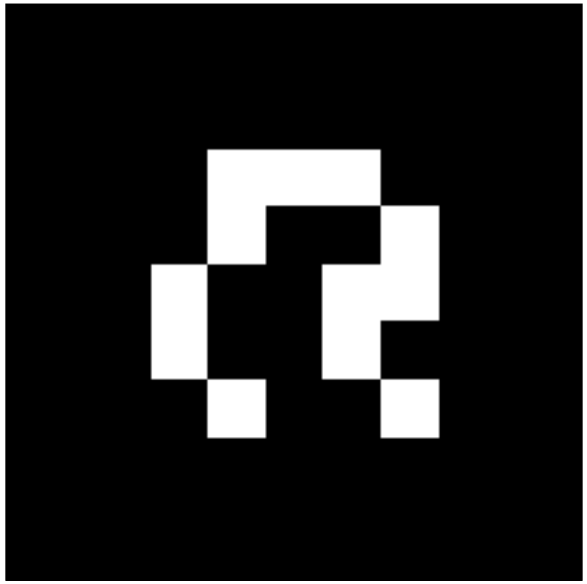
Closer coral reef model showing finer local structure.

Keep markers flat, matte, high contrast, and fully in frame for AR visualization.

AR - demo 5x5 BCH Barcode Markers

https://kcollins.github.io/xr-notes/AR/ARJ.html

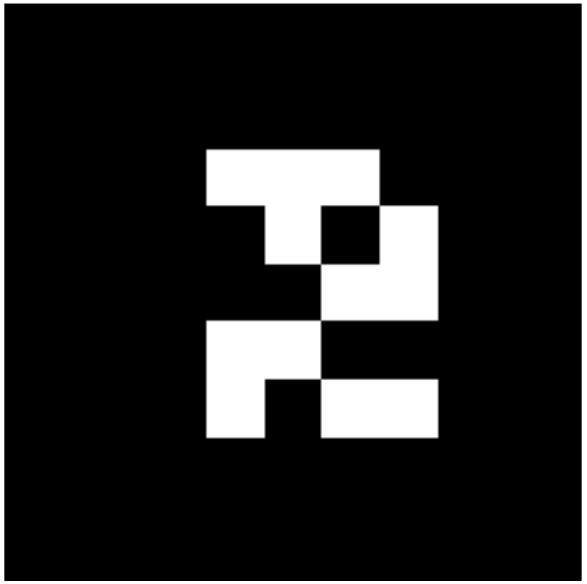
Sheet 5 of 6 - print at 100% scale; each marker square is 3.0 in.



ID 13

AWE radial profiles

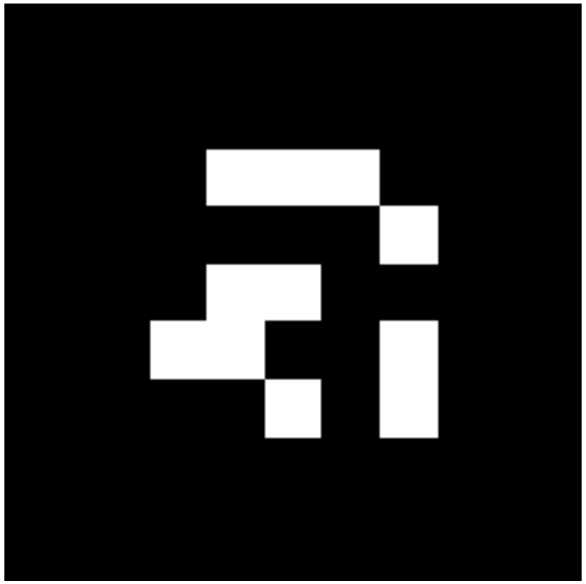
Measuring waves in satellite data by using cardinal profiles.



ID 14

Sentinel + Bed

Satellite-and-bed context model for terrain and bed-surface viewing.



ID 15

Antarctica comparison

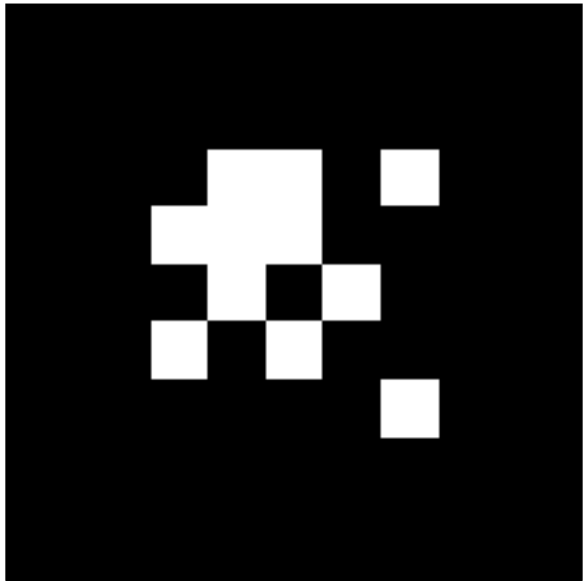
Polar terrain model showing the Antarctic ice-sheet surface (alternate version).

Keep markers flat, matte, high contrast, and fully in frame for AR visualization.

AR - demo 5x5 BCH Barcode Markers

https://kcollins.github.io/xr-notes/AR/ARJ.html

Sheet 6 of 6 - print at 100% scale; each marker square is 3.0 in.



ID 16

Electron density point cloud

Point cloud of electron density respond in the ionosphere following the Tohoku 2011 tsunami (alternate).

Blank slot

Blank slot

Keep markers flat, matte, high contrast, and fully in frame for AR visualization.
